# RULE THE SEA<sup>®</sup>

## **CUSTOM OPTIONS** Get exactly the boat you want

We know that every boatie has different needs. That's why a standard Senator comes with all of the 'must-haves' to ensure the utmost safety and usability. Then we put you in control of the 'nice-to-haves' that will make the boat just right for YOU.

## **TRUE MEASURES** More boat for your buck

When comparing boats, look at the real measure. At Senator we measure the true length of the boat, we don't include the overhangs to make our boats seem longer than they are. More boat for your buck!

## **GREAT RIDING** The legendary Senator ride

Let's face it, New Zealand can throw some ugly conditions our way. That's why when we design and build our boats, comfort is king. With higher cabin heights and stable great-riding hulls, you'll always feel safe and secure in a Senator.

## **BIGGER DECK** Bigger is always better

Every inch matters at the business end of your boat. Over the decades we've refined our decks to be the biggest in class, offering you and your mates the ultimate play area to do what you love.

## **BUILT TO SURVEY STANDARDS** Unparalleled buoyancy

Senator's construction standards have been developed through close partnership between our design and build team and of course - boaties just like you. The Senator Standard has become New Zealand's benchmark in pontoon boatbuilding.

## **100% KIWI MADE** Built by boaties, for boaties

We bring together a 'best-of-breed' design, boat building and finishing team. This gives Senator confidence that their boat is built by people who understand their needs. Senator is always listening, so if you have any ideas about how we can improve our designs to lead to a better day out on the water, we're all ears!
