

RC 540 LTD Edition

The Davey Hughes Special

This is the boat featured in the Davey Hughes story documenting his journey in choosing a boat brand, model and the right features for his boating and fishing adventures. See our website to view the episodes online, <https://www.senatorboats.com/daveys-adventure/>

This unique design is well suited to both the experienced and new boatie who wants a safe, and capable sea boat.

Small enough to be launched by one person, yet big enough to take out family and friends for a fish.

The RC540 Ltd Edition has all the features you'd expect to see in a much bigger boat, all cleverly packed into a 5 metre hull.

Easily towed behind a medium sized car, and effortlessly powered by 70hp outboard (up to 100hp).

Overall length

5.70m

Boat length

5.54m

/ SPECS

RC 540 LTD Edition

RULE[®] THE SEA

CUSTOM OPTIONS

Get exactly the boat you want

We know that every boatie has different needs. That's why a standard Senator comes with all of the 'must-haves' to ensure the utmost safety and usability. Then we put you in control of the 'nice-to-haves' that will make the boat just right for YOU.

GREAT RIDING

The legendary Senator ride

Let's face it, New Zealand can throw some ugly conditions our way. That's why when we design and build our boats, comfort is king. With higher cabin heights and stable great-riding hulls, you'll always feel safe and secure in a Senator.

TRUE MEASURES

More boat for your buck

When comparing boats, look at the real measure. At Senator we measure the true length of the boat, we don't include the overhangs to make our boats seem longer than they are. More boat for your buck!

BIGGER DECK

Bigger is always beter

Every inch matters at the business end of your boat. Over the decades we've refined our decks to be the biggest in class, offering you and your mates the ultimate play area to do what you love.

BUILT TO SURVEY STANDARDS

Unparalleled buoyancy

Senator's construction standards have been developed through close partnership between our design and build team and of course - boaties just like you. The Senator Standard has become New Zealand's benchmark in pontoon boatbuilding.

100% KIWI MADE

Built by boaties, or boaaties

We bring together a 'best-of-breed' design, boat building and finishing team. This gives Senator confidence that their boat is built by people who understand their needs. Senator is always listening, so if you have any ideas about how we can improve our designs to lead to a better day out on the water, we're all ears!
