

RH 860W

THE SENATOR MEASURE

At Senator we measure the true length of the boat, we don't include the overhangs to make our boats seem longer than they are = more boat for your buck.

Overall length

8.80m

Boat length

8.60m

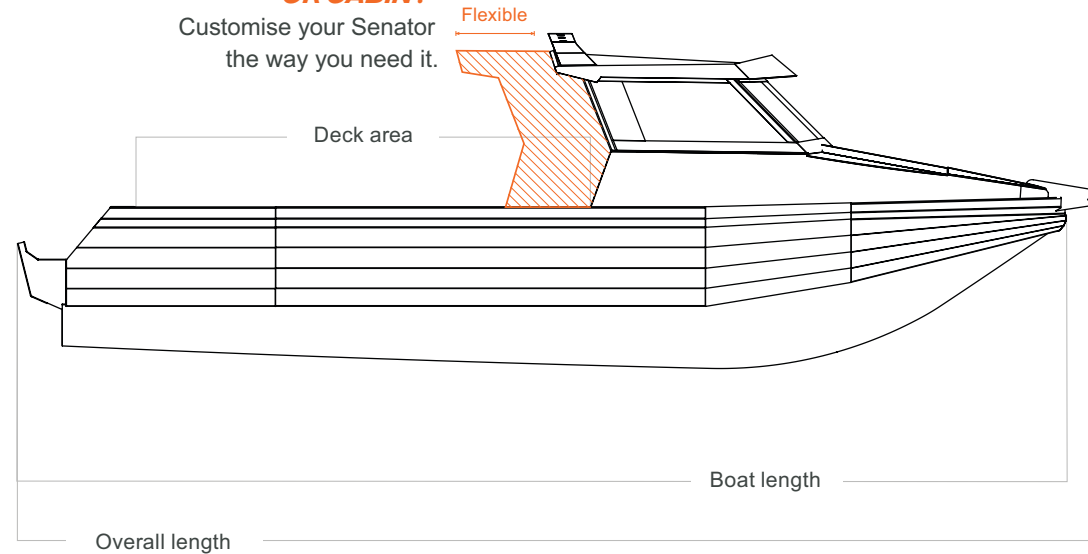

Deck Area

7.34m²

(Width 2.16m x Length 3.4m)

BIGGER DECK OR CABIN?

Customise your Senator the way you need it.

/SPECS

Beam external	2.70m	Transom dead rise	18°	Approx towing weight	T.B.A
Beam internal	2.16m	Transom	635mm (25")	Approx weight	T.B.A
Pontoon thickness	3mm	Height on trailer	3.17m	HP rating	250-400hp
Hull thickness	6mm	Length on trailer	10.30m	Recommended HP	300hp
Treadplate floor	4mm	Width on trailer	2.70m	Recommended heavy duty trailer braking system	

*RH860W are often highly customised, therefore we cannot accurately predict the weight of the completed boat in every case. Please be aware the Boats that weigh above 3.5 tonne require a COF trailer by law.

RH 860W

/ STANDARD FEATURES

Everything you need – nothing you don't.

- + Sliding window assembly upgrade
- + Toilet, flushing or chemical
- + Twin internal hand rails
- + Cooker / fridge / sink
- + Booth seating

RULE THE SEA

DESIGN OPTIONS Built around you

We know that every boatie has different needs. That's why a standard Senator comes with all of the 'must-haves' to ensure the utmost safety and usability. Then we put you in control of the 'nice-to-haves' that will make the boat just right for YOU.

GREAT RIDING The legendary Senator ride

Let's face it, New Zealand can throw some ugly conditions our way. That's why when we design and build our boats, comfort is king. With higher cabin heights and stable great-riding hulls, you'll always feel safe and secure in a Senator.

TRUE MEASURES More boat for your buck

When comparing boats, look at the real measure. At Senator we measure the true length of the boat, we don't include the overhangs to make our boats seem longer than they are. More boat for your buck!

BIGGER DECK Bigger is always better

Every inch matters at the business end of your boat. Over the decades we've refined our decks to be the biggest in class, offering you and your mates the ultimate play area to do what you love.

BUILT TO SURVEY STANDARDS Unparalleled buoyancy

Senator's construction standards have been developed through close partnership between our design and build team and of course - boaties just like you. The Senator Standard has become New Zealand's benchmark in pontoon boatbuilding.

100% KIWI MADE Built by boaties, for boaties

We bring together a 'best-of-breed' design, boat building and finishing team. This gives Senator confidence that their boat is built by people who understand their needs. Senator is always listening, so if you have any ideas about how we can improve our designs to lead to a better day out on the water, we're all ears!
